

Church in These Streets

Jeezy

Oh man, you know what this shit is my nigga. I'd be lying to you if I wasn't telling you the truth. You know? I just call it how I see it my nigga. Everybody gather you know what I'm sayin'? I got somethin' to say. Yeah, church off in these streets my nigga. Put in the good word,

Pastor Young, amen, amen Put my street disciples, church off in these streets

Call my congregation, church off in these streets

Call me Pastor Young, I came to spread the word

Spread the word like my partner spray them birds

If you gettin' how you livin', just say hallelujah

If you out here and you poppin', busta have your shooter

I said and I meant it so you know indeed

I came to spread the word, church off in these streets Heard he took a unit, broke it down to singles

Take them one by one just like them bitches Pringles

Heard he lost it all and then he got it back

All them folks a tell ya that's why I got a tax

I'm in this bitch, I'm feelin' like a million dollars

Okay I'm loungin' (?) show a million dollars

The first around the corner got a nigga stressed

Just hope he send a blessin' in my direction, ay

Put my street disciples, church off in these streets

Call my congregation, church off in these streets

Call me Pastor Young, I came to spread the word

Spread the word like my partner spray them birds

If you gettin' how you livin', just say hallelujah

If you out here and you poppin', busta have your shooter

I said and I meant it so you know indeed

I came to spread the word, church off in these streets My nigga got a plug and then he got indicted

Saw him in that foreign thing then got excited

Graduated from the streets and I ain't had a tutor

If you see another day then just say hallelujah

Ain't no fuckin' secret, know I came from nothin'

Told myself that I'mma go and grind for somethin'

Hustle cause I gotta splurge when I can

Just know that you lookin' at a God fearin' man

Put my street disciples, church off in these streets

Call my congregation, church off in these streets

Call me Pastor Young, I came to spread the word

Spread the word like my partner spray them birds

If you gettin' how you livin', just say hallelujah

If you out here and you poppin', busta have your shooter

I said and I meant it so you know indeed

I came to spread the word, church off in these streets
