

# Promise the Stars

## We the Kings

Let's take off and fly  
And race through the sky  
And like the hundreds of airplanes  
We're floating way up high We'll never look down  
We'll build our own town  
And like the thousands of clouds  
We will never touch the ground But would you risk the broken bones  
Just to call this place home?  
This could be home  
Well, maybe I'm down low  
Maybe I'm up high  
Maybe I'm losing my own mind  
You know that there are no other two hearts  
Closer than ours  
Maybe you'll follow  
Maybe you'll stay  
I'm praying you won't give yourself away  
You know that you are the only one  
I promise the stars  
You are With your hands in mine  
We'll soar through the night  
And like the dozens of space ships  
We'll dance with satellites  
We'll keep our eyes closed  
And we won't let go  
And with the millions of stars  
We will never be alone But would you risk the broken bones  
Just to call this place home?  
This could be home Well, maybe I'm down low  
Maybe I'm up high  
Maybe I'm losing my own mind  
You know that there are no other two hearts  
Closer than ours  
Maybe you'll follow  
Maybe you'll stay  
I'm praying you won't give yourself away  
You know that you are the only one  
I promise the stars  
You are And I, I  
Want you, my only lover  
And I, I  
Want you, my only lover Well, maybe I'm down low

Maybe I'm up high  
Maybe I'm losing my own mind  
You know that there are no other two hearts  
Closer than ours  
Maybe you'll follow  
Maybe you'll stay  
I'm praying you won't give yourself away  
You know that you are the only one  
I promise the stars
