

# Listen (feat. John Legend)

David Guetta

Let's hit the road  
And away we go  
Take a new direction  
To a different coast  
Maybe we should try and put it on the line  
You gotta trust me now  
Turn up the radio  
Tune out the world and roll with the melody  
Baby listen close and open up your mind  
Imagine it, anywhere  
More than miles  
I'll take you there  
Know one day from the sky, we'll be as one  
Now here we are  
All we gotta do is, listen  
All we gotta do is, listen  
All we gotta do is, listen  
All we gotta do is, listenListen  
All we gotta do is, listen  
All we gotta do is, listen  
All we gotta do is, listen  
Soundtrack in the wind  
Like passing violins  
I can be your rhythm in the silence  
And every time we sing an echo's in the sky  
Let me close your eyes  
Help you fantasize  
Make a kiss our playlist the entire night  
Listen to the words and a letter fliesImagine it, anywhere  
More than miles  
I'll take you there  
Know one day from the sky, we'll be as one  
Now here we are  
All we gotta do is, listen  
All we gotta do is, listen  
All we gotta do is, listen  
All we gotta do is, listenListen  
All we gotta do is, listen  
All we gotta do is, listen  
All we gotta do is, listenListen  
All we gotta do is, listen  
All we gotta do is, listen

All we gotta do is, listen
