

# Hearing Aid

## Bracket

I need a hearing aid, so I can turn it off, when u talk down to me  
I need a hearing aid, so I can turn it off, when u talk down to me  
I want the world to shut up, I want the world to shut up,  
I want the world to shut up, just for one day, one day I need a cigarette, so I can light it up, then  
its hard for you to breathe  
I need a cigarette, so I can light it up, then its hard for you to breathe  
I want the world to shut up, I want the world to shut up,  
I want the world to shut up, just for one day, one day My day will come  
Tell everyone that im away  
Make yourself known  
You've just begun, stay the same I need a hearing aid, so I can turn it off, when u talk down to  
me  
I need a hearing aid, so I can turn it off, when u talk down to me  
I want the world to shut up, I want the world to shut up,  
I want the world to shut up, just for one day  
One day  
One day  
One day  
One day
