

# Devil in a Fast Car (1993 Remastered Version)

[Sheena Easton](#)

I used to think that I was made of stone, I only wanted to be on my own  
It gets so lonely when youre all alone and you just cant take anymore  
Look at the passion in my  
eyes tonight

Comin at you through the clear moonlight

I want a lover who can hold on tight til I just cant take anymore  
Chorus:

Give me no heavenly knight, make him a devil in a fast car

Send me no angel in white, I want it just the way that you are  
Other eyes are watching  
everywhere

Tryin hard to catch us but I just dont care

I gotta touch you just to prove youre there, not some dream I had before

Here comes that feeling that I cant understand

Cant put it in the back, cant hold it in my hand

Gave all the love time on those one-night-stands

Just to see what lies in the store

chorus repeats 2x  
Flyin east to the risin sun, for ninety minutes Ill be under the gun  
Ill dream about you while Im on the run til I just cant dream anymore  
chorus repeats out
