

# Desperation

Miranda Lambert

Throw a dog a bone  
I'll take it if I have to  
Go real fast like there's somewhere we can get to  
What's the use of standing right there on the edge if there ain't nowhere to fall  
What's the use in hanging on tight to the phone if nobody might call  
Desperation  
There's danger in frustration  
Complicated words slipping off of your tongue and ain't one of them the truth  
I'm still desperate for you  
Tell it like a lie, live it like a movie  
Give a heart away like it don't mean nothing to me  
What's the use in making all the plans we made if you weren't gonna go  
What's the use of slapping on a smile for a face if your eyes don't wanna show  
Desperation  
There's danger in frustration  
Complicated words slipping off of your tongue and ain't one of them the truth  
I'm still desperate for you  
Tell it like a lie, live it like a movie  
Give a heart away like it don't mean nothing to me  
What's the use in making all the plans we made if you weren't gonna go  
What's the use of slapping on a smile for a face if your eyes don't wanna show  
Well it's too damn bad you didn't have a chance to make me your friend  
You were too caught up in giving too much up and not doing what you should have been  
Desperation  
There's danger in frustration  
Complicated words slipping off of your tongue and ain't one of them the truth  
I'm still desperate for you  
Tell it like a lie, live it like a movie  
Give a heart away like it don't mean nothing to me  
What's the use in making all the plans we made if you weren't gonna go  
What's the use of slapping on a smile for a face if your eyes don't wanna show
