Dance I feel like the DJ is my bodyguard

You see the way he keeps me safe

With the treble and that bass

I feel free enough to party hard

This dress won't go to waste

Feels like I own the place

V.I.P to to be the boss

You see the way these people stare

Watching how I fling my hair

I'm a dancefloor lover

Baby there's no other

Who do it like I do it yeah

From here on out

I'll be your commander

No fear no doubt

I'll provide the answer

Right now I command you to dance

I'll be your commander

Right now I command you to dance

I'll be your commander

Right now I command you to...I- I'll be your commander (Dance, Dance)

I'll provide the answer (Dance)

Ain't no reason to celebrate

But you know we gon' hav a ball

Champagne spillin' from the wall

And I'll be partying til hella late

But I ain't worried not at all

I just give my driver a call yeah

(Tell him) Pick me up at 8am

No we ain't stopping right here

We'll take the party to the crib

Let's go all night baby

You won't find no lady

Who does it like I does it yeah From here on out

I'll be your commander

No fear no doubt

I'll provide the answer  
Right now I command you to dance  
I'll be your commander  
Right now I command you to dance  
I'll be your commander  
Right now I command you to...It's jam packed  
So DJ where you at?  
I know you got my back  
So make that bass attack  
Let's make these people move  
You know I need some room, to  
Do what I do, I'm bout to act a fool  
Turn the lights onFrom here on out  
I'll be your commander  
No fear no doubt  
I'll provide the answer  
Right now I command you to dance
