

# Shine a Light

## Cults

Late at night alone  
I was hoping you would show  
Just waiting for you  
Try to catch a laugh  
Out here on my own  
There ain't nowhere else to go  
I've checked in all the places you could hide  
Late at night alone  
I was hoping you would come from behind  
Cause I don't want to stay  
Out here on my own  
I was hoping you would show up behind  
We're headed the same way It's all I want  
It's all from dreaming  
To keep you here forever  
If I ever ride alone  
I would never let go  
Or everyone could see how hard I tried  
I've never been so bold  
But these feelings gotta go  
I've never could a dream pass me by  
The truth has now unfold  
Shine a light  
And lead me back away  
The story's now told  
The curtains unfold  
Make it by and make sure that it stays
