

The Current (feat. Gavin Rossdale)

Blue Man Group

Going down
Going down
Down where my breath is the only sound
Going down
Going down
Going down
Don't look for me now I'm not around
All day long, I'm under-ground I've been thinking about the future
I've been waiting for the day
Let the current carry me
Far away
Let the current carry me away (The) current flows
I don't know where it goes
I don't care, I just get it there
Took this job, cause I needed one
Seven years since I've seen the sun
All day long, I'm under-ground
I've been thinking about the future
I've been waiting for the day
Let the current carry me
Far away
Let the current carry me away
I've been thinking about the future
I hope some day I'll get away
But the current keeps bringing me
Back around
Seems the only place for me is under-ground
So tomorrow when the sun goes up
I'll be going down
Going down
Going down
