

# Above the Bridge

[AFI](#)

It's too much to take, the thought of it all  
Release me distraction  
It's too much to take, the thought of my fall  
Shameful attraction  
What happened to the place I'd hide?  
Who taught you how to sneak inside?  
It's too much to take. It's too much to take I saw you step upon that bridge  
I saw you walk across that bridge  
I saw you float above that bridge I saw you step upon that bridge  
I saw you walk across that bridge  
I saw you float above our bridge  
And I've floated since that day  
It's too much to take, the thought of it all  
Release me distraction  
It's too much to take, the thought of my fall  
shameful attraction  
What happened to the place I'd hide?  
I taught you how to sneak inside  
It's too much to take. It's too much to take  
It's too much to take  
It's too...I saw you step upon that bridge  
I saw you walk across that bridge  
I saw you float above that bridge I saw you step upon that bridge  
I saw you walk across that bridge  
I saw you float above our bridge  
And I've floated since that day  
I thought I saw the sky  
I thought I saw the sky  
I thought I saw the sky  
Behind your eyes. I thought I saw the sky  
I thought I saw the sky  
I thought I saw the sky  
Behind your eyes. I saw you step upon that bridge  
I saw you walk across that bridge  
I saw you float above that bridge I saw you step upon that bridge  
I saw you walk across that bridge  
I saw you float above our bridge  
And I've floated since that day
