Above the Bridge

<u>AFI</u>

It's too much to take, the thought of it all Release me distraction It's too much to take, the thought of my fall Shameful attraction What happened to the place I'd hide? Who taught you how to sneak inside? It's too much to take. It's too much to takeI saw you step upon that bridge I saw you walk across that bridge I saw you float above that bridgeI saw you step upon that bridge I saw you walk across that bridge I saw you float above our bridge And I've floated since that day It's too much to take, the thought of it all Release me distraction It's too much to take, the thought of my fall shameful attraction What happened to the place I'd hide? I taught you how to sneak inside It's too much to take. It's too much to take It's too much to take It's too...I saw you step upon that bridge I saw you walk across that bridge I saw you float above that bridgeI saw you step upon that bridge I saw you walk across that bridge I saw you float above our bridge And I've floated since that day I thought I saw the sky I thought I saw the sky I thought I saw the sky Behind your eyes.I thought I saw the sky I thought I saw the sky I thought I saw the sky Behind your eyes.I saw you step upon that bridge I saw you walk across that bridge I saw you float above that bridgeI saw you step upon that bridge I saw you walk across that bridge I saw you float above our bridge And I've floated since that day Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
