

Babylon

Oneohtrix Point Never

Babylon
It's for you I sing
Babylon
In a sea of other things
This song
Burning the offering Liquid shaky ground
That the soil cannot reach (cannot reach)
And the tower casts a shadow
Virus when you speak
And I love it when I see you
In a state of disbelief Even if I'm wrong
You're not that Babylon Run along (run along)
Even though you don't believe
Just go on
It's easy to be deceived
Right or wrong
So difficult to leave It's not that I don't get it
I really think I do
We wanted it to be different
But that ain't happening any time soon Mood spelled backwards
Says "doom"
(Help me)
Now I know why
You think we're in Babylon
(Help me)
Now I know why
You think we're in Babylon
(Help me)
Now I know why
You can't leave this Babylon
