Call an Ambulance

Albert Hammond Jr.

Once I was told that a boy caught a cold And he left to go home to get some sleep instead Well his baby stayed where she was I go talk to her cause I wanna sleep with herAnd you would only hold me If I would never tell you it would end And you would never have me Cause you were only wanting to be friends And you would always hold out Till he gave outNow that he's back I'm afraid You'll go back to his bed where I know he'll try to keep you Well I'm well aware of what she does She won't leave me because I sleep with her And you would only hold me If I would never tell you it would end And you would never have me Cause you were only wanting to be friends And you would always hold out Till you gave out Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
