## **This Is Music**

## **The Verve**

I stand accused, just like you For being born without a silver spoon Stood at the top of the hill over my town I was foundI've been on the shelf too long Sitting at home on my bed too long Got my things and now I'm gone How's the world gonna take me?Finding myself used to be hard But now I see the light If love is a drug Then I don't need it I've been on the shelf too long Sitting at home on my bed too long Now it's time to hear my song How you're gonna take it? I've been on the shelf too long Played the words without the song If ever I had a way to go Tell me now I'll take itI've been on the shelf too long I've been on the shelf too long I've been on the shelf too longCome and I'm gone - Come on, come on, come on outside Come and I'm gone - We've got a lot of living to do I come and I'm gone - There's a door in my mind that's open wide, come inside I come and I'm gone - come inside Jesus never saved me He'll never save you too, and you know, know right now! I've got a little sticker on the back of my boot - this is music This is music - finding myself used to be hard, hard, harder than it's ever been This is music - And now I see the light shining bright in my eyes This is music - If love is the drug then it ain't for me This is music - Well music is my life and loved by me This is music - I'm gonna move on the floor with my sweet young thing This is music - Down down down we go until I reach the bottom of my soulThis is music Song Discussions is protected by U.S. Patent 9401941.
