

Willows

Vanessa Carlton

Find a love, go build a cabin
Find land and tree, carve in a wish
on your knees, planting seeds
the dirt making rows where the devil don't see
My love I agree, so lucky to find ya
But memories
They don't stay behind us
Our minds are strong
Could it be enough to bring to the bones?
Our weeping willow is hanging above me
On back in the sun, would it fall upon me?
I won't let you down
And man you will keep safe my love
keep safe my love
Sow the earth
A blanket of bounty
In the distance a hearse, the devil drives empty
In a babies eyes, the ritual purifies ever design
Our weeping willow is hanging above me
On back in the sun, when you lay beside me
I won't let you down
And man you will keep safe my love x3
Our weeping willow is hanging above me
On back in the sun, when you lay beside me
I won't let you down
And man you will keep safe
let you down
And man you will keep safe
let you down
And man you will keep safe my love
Mmmm...
