

Too Young to Know

Jessie James Decker

Well, I've stuck out in your street
And I'm lookin' for some kind of halo
When somebody says to me, boy
She' too young to know Well, I didn't make your time
I never said you were mine
Don't you think you show
I guess I'll have to teach you how to roll
Met you outside school
When sure no one was lookin'
And your teacher looks at me,
all his envy growin'
Well I didn't make your time
I never said you were mine
Don't you think you show
I guess I'll have to teach you how to roll
Met you outside school
When sure no one was lookin'
And your teacher looks at me,
All his envy growin' I said, take it easy baby,
You sure know what's showin'
And I can't help myself
Without your friends all knowin'
Well, I didn't make your time
I never said you were mine
Don't you think you show
I guess I'll have to teach you how to roll
Met you outside school
When sure no one was lookin'
And your teacher looks at me,
all his envy growin' You got a long, long way to go
