

# Up All Night

Charlie Puth

Well, I get the thrill run down my spine  
When I see you hitting me up  
Feelin' so electrified  
With the heat of a million suns  
You know just one touch can keep me high  
And I think I'll never come down  
Till a couple days go by And you're nowhere to be found...  
Up all night  
Up all night  
All the things that you said to me yesterday  
Playing over in my mind  
It's a crime  
It's a crime  
How you're reeling me in with the games you play  
Then you hang me out to dry  
So I try to shake you out my head  
Try to dance with somebody new  
But you got those lips so red  
And that smoking voice, you do  
So I know it's pointless anyway  
Cause there ain't nobody else That could light me up so bright And break this crazy spell  
Up all night  
Up all night  
All the things that you said to me yesterday  
Playing over in my mind  
It's a crime It's a crime  
How you're reeling me in with the games you play  
Then you hang me out to dry  
If I wait a little longer  
Then maybe you'll come back around  
Wait a little longer Then maybe you'll be ready now  
Cause I would wait forever  
For you to fall back into my arms So come on  
Up all night  
Up all night  
All the things that you said to me yesterday  
Playing over in my mind  
It's a crime  
It's a crime  
How you're reeling me in with the games you play  
Then you hang me out to dry  
Up all night

Up all night  
All the things that you said to me yesterday  
Playing over in my mind  
It's a crime  
It's a crime  
How you're reeling me in with the games you play  
Then you hang me out to dry  
How you're reeling me in with the games you play  
Then you hang me out to dry
