

# That's When You Know It's Over

Lee Brice

When you can look at her picture and not wanna kiss her no more,  
when you don't feel like you've been hit by a train at the sound of someone saying her name  
anymore  
when you can drive down the road and not be afraid of what's being played on the radio...That's  
when you know it's over  
That's when you've made it  
over to the other side, ready for another ride  
That's when you know it's overWhen the time of the year don't stir up any tears anymore  
when it don't feel like the past is a gun and there's nowhere to run anymore  
when it don't take every bone to not dial her number just leave her alone  
That's when you know it's over  
That's when you've made it  
over to the other side, ready for another ride  
That's when you know it's overWhen you wouldn't go back, even if you could  
when hearing' she's happy, finally feels good  
That's when you know it's over  
That's when you've made it  
over to the other side, ready for another ride  
That's when you know it's overThat's when you know it's over
