## **Lost (feat. Janet Devlin)**

## **Gareth Emery**

And there's no smoke without reason It's a sign there's something wrong In my lungs there's a poison I've been breathing in too long 'Cause there's no I No I in We And there's no You, No You in Me Cause I've been burned Way beyond the third degree Cause your words are like gasoline You pour on the fire and the bridges you burned Led to our dreams It's just another thing that we lost When the spark turned into a flame And the flames grew much higher And my hope, faith, and every last desire Is just another thing that we lost in the fire Just another thing that we lost Just another thing that we lost Just another thing that we lost Ashes fall just like snowflakes That are warm against my skin You say that we could re-build this Wouldn't know where to begin Cause there's no snow And there's no rain To hide my tears To douse these flames Cause I've been burned Way beyond the third degree Cause your words are like gasoline You pour on the fire And the bridges you burn led to our dreams It's just another thing that we lost When the spark turned into a flame And the flames grew much higher And my hope, faith, and every last desire Is just another thing that we lost in the fire Is just another thing that we lost in the fire Is just another thing that we lost in the fireIs just another thing that we lost in the fire

Is just another thing that we lost
