

Little Bird

Far East Movement

Little bird, have you got a key
Unlock the lock, inside of me
Yo, I had a dream, baby, you could get high off me
You could fly for free, if I save you babe
Would you light the street
It's inside of me, you can't breathe, baby
No, you can't feel your feet, 'cause this ain't that dream, ain't it
Burned you too hot to see that the high is me
All my life I've been living for love
Hold me down, I'ma hold you up
When it go down, I'ma give my love
'Cause you just can't, just can't get enough
All my life I've been living for love
Hold me down, I'ma hold you up
When it go down, I'ma get my love
'Cause you just can't, just can't get enough
Little bird, have you got a key
Unlock the lock inside of me
Yeah, let's make believe, baby, you couldn't fly from me
Wouldn't walk up on that wire on a low, wouldn't lie to me
Wouldn't creep out for that dime
One more time when we lie asleep
But this ain't that, ain't that dream ain't it
Burned you too hot to see that the high is me
All my life I've been living for love
Hold me down, I'ma hold you up
When it go down, I'ma give my love
'Cause you just can't, just can't get enough
All my life I've been living for love
Hold me down, I'ma hold you up
When it go down, I'ma get my love
'Cause you just can't, just can't get enough
Little bird, have you got a key, unlock the lock inside of me
Yeah, nothing what it seems, baby girl was just a fiend
When she come down it was all a dream
Best believe buzz ain't worth the steam, little bird don't clip your wings
Baby, when you get
down, do you get low
Maybe you should quit now, go in with outro
Even what we know, what we got worth more than dough
When you high, don't fly alone
All my life I've been living for love
Hold me down, I'ma hold you up
When it go down, I'ma give my love
'Cause you just can't, just can't get enough
All my life I've been living for love
Hold me down, I'ma hold you up
When it go down, I'ma give my love
'Cause you just can't, just can't get enough
When it go down, I'ma give my love
'Cause you just can't, just can't get enough
When it go down, I'ma give my love

'Cause you just can't, just can't get enough, good morning, bird
