## Pendulum

I was running into the cold light  
Wondering where to go  
To run away without you All my fear is coming home  
And it's ripped out from the soul  
You can't be me, I will become you tonight I was wandering under black skies  
Looking at what is mine  
No control left to lose  
Well, I thought that it wouldn't face me  
But I'm worrying like a child, I feel so guilty  
I'll make it up to you tonight Pictures that I've been dreaming are coming down  
They're changing my future  
Visions I had buried underground  
Returning to the future I was breaking out of my own skin  
Choking up on release  
I'm in not state to judge you Watching everything left alone  
Chasing memories I used to own  
I can't wait till this is over tonight Pictures that I've been dreaming are coming down  
They're changing my future  
Visions I had buried underground  
Returning to the future  
The nightmares I've been having have arrived  
The change in my future  
The sounds of my creation at my door  
How could you do this to her?
