

# Let's Just Live (feat. Casey Lee Williams)

## Jeff Williams

It used to feel like a fairy tale  
Now it seems we were just pretending  
We'd fix our world  
And on our way to a happy ending  
Then it turns out life  
Is far less like a bedtime story  
Then a tragedy with no big reveal  
Of the hero's glory  
And it seems we weren't prepared  
For a game that wasn't fair  
Do we just go home?  
Can we follow through?  
When all hope is gone  
There is one thing we can do  
Let's just live  
Day by day  
And not be conquered by our sorrows  
The past can't hold us down  
We must break free  
Inside we're torn apart  
But time will mend our hearts  
Move onward, not there yet  
So let's just live  
Can we get back to a happy place?  
We've suffered so much pain and sorrow  
After yesterday, is there any way  
We can trust tomorrow?  
Will we go through life filled with strife  
Like it's torn and tattered?  
Can we keep this up  
When we know that every hope has shattered?  
And the lesson isn't new  
That some dreams just can't come true  
When it finally falls  
And the battle's through  
When our faith is gone  
And there's nothing left to lose  
Let's just live  
Day by day  
And not be conquered by our sorrows  
The past can't hold us down  
We must break free  
Inside we're torn apart  
But time will mend our hearts  
Move onward, not there yet  
So let's just live  
When it feels like there's nothing  
Worth living for

Everything is broken  
The light's not there anymore  
And the story  
Takes an unexpected turn  
A friend is suddenly gone We can cry our lives away  
But if they were here  
They'd say  
"Go forward  
You must keep moving on." Let's just live  
Just one day  
Let's forget about our problems  
Let's fall in love with life  
And just be free The sun will never fade  
The night won't steal our day  
Let's dance and love and laugh  
And let's just live
