

No More Bolero'S

Gerard Joling

What can I say
There's an empty place
Where you're
Love filled my life
And I know
That a part of you will always
Be a part of me
One summer night
And the sky is
Full of wishes
That won't
Arrive
How can it be
In a world without your eyes
To look at me
No more boleros
No more nights
To dance
The dance of love
Only lonely hearts
No more boleros
I hear the song
And your arms always
Made me
Feel so warm
Now you're gone
I'll be dancing
On alone
