

From the Clouds

Jack Johnson

Oh, you're such a pretty thing
I'll take you and I'll make you
All mine
I would steal you
From this patient world
Let it chase us
It could never take you back We could watch it from the clouds
We can't stop it anyhow
It's not ours We could watch it from the clouds
We can't stop it anyhow
It's not ours
It's not ours
I know you know me well enough
To know I'm lucky to have you But oh it's just the little things
The words that I should tell you
All the time
Like you're so sweet to me
When you beat me
In double solitaire
You're so sweet to me
In a world that's not always fair We could watch it from the clouds
We can't stop it anyhow
It's not ours We could watch it from the clouds
We can't stop it anyhow
It's not ours
The more love that you feel
The more your little heart will ache
Love is the only thing that carries on
It's the only thing this world can't take
This love is ours
This love is ours Oh you're such a pretty thing
I'll take you and I'll make you
All mine
