

# From the Clouds

Jack Johnson

Oh, you're such a pretty thing  
I'll take you and I'll make you  
All mine  
I would steal you  
From this patient world  
Let it chase us  
It could never take you back We could watch it from the clouds  
We can't stop it anyhow  
It's not ours We could watch it from the clouds  
We can't stop it anyhow  
It's not ours  
It's not ours  
I know you know me well enough  
To know I'm lucky to have you But oh it's just the little things  
The words that I should tell you  
All the time  
Like you're so sweet to me  
When you beat me  
In double solitaire  
You're so sweet to me  
In a world that's not always fair We could watch it from the clouds  
We can't stop it anyhow  
It's not ours We could watch it from the clouds  
We can't stop it anyhow  
It's not ours  
The more love that you feel  
The more your little heart will ache  
Love is the only thing that carries on  
It's the only thing this world can't take  
This love is ours  
This love is ours Oh you're such a pretty thing  
I'll take you and I'll make you  
All mine
