

# Playing the Victim

## The Story So Far

Crushing you inside of my grip again  
You're breathing in  
Pushing this aside till when?  
Ignoring that pain  
Felt you creep inside of my head again  
It all depends on where I am And who I'm there with  
It's rough when we're both square one With so much undone  
Who lost? Who won?  
All rain, No sun  
Don't want to have to speak to anyone Said this will kill if you let it  
Somehow I forget  
I should be asleep I shouldn't be upset  
Playing the victim  
While you're still here  
Blaming the future on things I fear  
I keep blaming the future on thing I fear Waking up to gloom and routine again  
You're breathing in  
That air that dries your lungs  
But you kept our trust  
And said, "Do what you must to be happy"  
And I left with a debt that called me  
Out quick to be honest with it all  
So now I just sing  
I just sing about missing this and missing that  
But what will it really bring?  
If we're both square one  
With so much undone  
Who lost?  
Who won?  
Said this will kill if you let it  
Somehow I forget  
I should be asleep  
I shouldn't be upset  
Playing the victim  
While you're still here  
Blaming the future on things I fear  
I keep blaming the future on thing I fear  
Just a special circumstance  
Where in lies the worst part that I can't accept  
Coming up on Fall  
Are there things we haven't spoke on yet?  
Said you won't regret

But you and I are one in the same  
Don't want to have to feel numb  
I don't want this undone  
Don't want to have to speak to anyone  
Said this will kill if you let it  
Somehow I forget  
I should be asleep  
I shouldn't be upset  
Playing the victim  
While you're still here  
Blaming the future on things I fear  
I keep blaming the future on thing I fear
