

# Innocence (feat. AlunaGeorge)

Flume

When you hold me  
Oh you really say somethings is broken.  
All you really say you hold me you hold me  
All you really say somethings is broken  
Broken  
All you really say you hold me you hold me  
All you really say something is broken  
Broken  
All you really say when you hold me you hold me mall you really say something is broken  
All you really say  
{music}  
When you hold me  
All you really say something is broken  
All you really say when you hold me  
All you say something is broken  
Wooh  
All you really say  
Yeah  
Get it again  
I already begin again  
Start again  
How do we make it off again
