

# Always

## Panama

Always I remember you  
Slow down so I can follow you And you, such a fearless soul  
Disarmed me by truth, and broke my mold  
Always I remember you  
Slow down and try to tell the truth And I know I'm just a coward when it comes to love  
Disarmed by words, like an old white stain Goodbye my deeper child  
Told you: dig down your barricades  
And follow your own heart now Always I remember you  
Slow down, and try to tell the truth  
Always I can recall you  
Can you slow down so I can follow you?  
Deep down you said I'm a coward when it comes to love  
Deep down your words changed my mold  
Deep down you said I'm a coward when it comes to love  
Deep down your barricades changed my mold
