

I Feel Better

Gotye

There was a time I was down, down
I didn't know what to do
I was just stumbling around, around
Thinking things could not improve
I couldn't look on the bright side
Of anything at all
That's when you gave me a call And I feel better, better, better than before
I feel better, better, better, now I'm not down anymore
And there were times I was sure, so sure
I couldn't turn it around
I couldn't care anymore
About the good things I found
That's when you gave me a reason
To make me smile again
I only have to see you and then I feel better, better, better than before
I feel better, better, better, now I'm not down anymore
I feel better, better, better than before
I feel better, better, better, now I'm not down anymore Life sometimes seems to get the best of
you
Like everything just brings you down
Just when you think there's nothing you can do
A friendly face will bring you around
And you'll feel better
You'll feel better, you'll feel better
Better than before
You'll feel better, much better
No you won't be down anymore
