

# I Feel Better

Gotye

There was a time I was down, down  
I didn't know what to do  
I was just stumbling around, around  
Thinking things could not improve  
I couldn't look on the bright side  
Of anything at all  
That's when you gave me a call And I feel better, better, better than before  
I feel better, better, better, now I'm not down anymore  
And there were times I was sure, so sure  
I couldn't turn it around  
I couldn't care anymore  
About the good things I found  
That's when you gave me a reason  
To make me smile again  
I only have to see you and then I feel better, better, better than before  
I feel better, better, better, now I'm not down anymore  
I feel better, better, better than before  
I feel better, better, better, now I'm not down anymore Life sometimes seems to get the best of  
you  
Like everything just brings you down  
Just when you think there's nothing you can do  
A friendly face will bring you around  
And you'll feel better  
You'll feel better, you'll feel better  
Better than before  
You'll feel better, much better  
No you won't be down anymore
