## Sailing

## **Mike Oldfield**

Let me out. I can't breathe Gotta get out of this concrete hole I'm wrecked and I'm decked I've gotta break free before I lose control Cast the lines awayFrom the dock at the harbour bay All those cares and worries and woes You can save them for another day Because we're sailing, sailing Yes we're sailing, sailing Give me space, I'm on fire Banging my head against a hard brick wall And I'm gone, so long You can leave a message but I'll never call Cast the lines away From the dock at the harbour bay It's a fine bright day And the wind is blowing away Let's go sailing, sailing Yes we're sailing, sailingCast the lines away From the dock at the harbour bay There's no cares no worries no woes And the wind is blowing away Let's go sailing, sailing Yes we're sailing, sailing You know that if you want to come with me baby you can sail away Cast the line If you've got time, come with me baby Sailing, sailing Sailing, sailing
