

# Alison Hell

## Annihilator

Alice isn't frightening  
Alice aren't you scared  
Alice isn't is wonderful  
Living life afraid  
Don't look around the corner  
I might be lurking there  
Under the bed at night  
You're up till dawn again Alison hell, your mind begins to fold  
Alison hell, aren't you growing cold  
Alison hell, you are looking blue  
Alice in hell, what else can you do  
Alice I begin my rule, life hideous in your mind  
Crying out, you've lost your doll  
It isn't worth a dime Alison hell, your mind begins to fold  
Alison hell, aren't you growing cold  
Alison hell, what are you looking for  
Alice in hell, soon I close the door Sitting in the corner, you are naked and alone  
No one listened to your fears, you've created me Alice isn't frightening  
Alice aren't you scared  
I was killed at birth  
I shoot this final scene  
You're in the basement  
You're trapped insanity  
Alison hell, what were you looking for  
Alison hell, as I close the door  
Alison hell, here you shall dwell  
Alison hell, alice dwells in hell  
Alice  
Alice  
Alison  
Alice  
In hell  
Goodbye
