Alison Hell

Annihilator

Alice isn't frightening Alice aren't you scared Alice isn't is wonderful Living life afraid Don't look around the corner I might be lurking there Under the bed at night

You're up till dawn againAlison hell, your mind begins to fold

Alison hell, aren't you growing cold

Alison hell, you are looking blue

Alice in hell, what else can you do

AliceI begin my rule, life hideous in your mind

Crying out, you've lost your doll

It isn't worth a dimeAlison hell, your mind begins to fold

Alison hell, aren't you growing cold

Alison hell, what are you looking for

Alice in hell, soon I close the doorSitting in the corner, you are naked and alone No one listened to your fears, you've created meAlice isn't frightening

Alice aren't you scared

I was killed at birth

I shoot this final scene

You're in the basement

You're trapped insanity

Alison hell, what were you looking for

Alison hell, as I close the door

Alison hell, here you shall dwell

Alison hell, alice dwells in hell

Alice
