

# Run Daddy Run (feat. Pistol Annies)

[Miranda Lambert](#)

Daddy can you hear the devil drawing near  
like a bullet from a gun, run daddy run All the songs you used to sing to me  
would rock the birds to sleep

I need you now so please somehow put rockets on your feet  
Wow wow wow wow Daddy can you hear the devil drawing near

like a bullet from a gun, run daddy run  
saw that dark cloud coming from a million miles away  
oh how I've dreaded this god forsaken place  
wow wow wow wow

Daddy can you hear the devil drawing near  
like a bullet from a gun, run daddy run  
Mamas been cryin in the kitchen  
sisters been afraid of the dark  
I've been gatherin the pieces of all these shattered hearts

I don't care where you go to  
I don't care where you land  
just get out of here daddy as fast as you can  
wow wow wow wow

Daddy can you hear the devil drawing near  
like a bullet from a gun, run daddy run  
run daddy run, run daddy run  
run daddy run, run daddy run
