

# How Good It Feels

## Lake Street Dive

I'm having so much fun on my own  
I wanna tell somebody  
I'm having so much fun all alone  
I wanna let somebody know  
How good it feels to be alone  
How good it feels to be alone  
How good it feels to be alone  
I'm having so much fun by myself  
I want the whole world to know  
That I don't need anybody else to row my boat  
And how good it feels to have nobody  
To make conversations with  
And how good it feels to have nobody  
To keep up relations with  
How good it feels to be alone  
How good it feels to be alone  
How good it feels to be alone  
Oh but I get so afraid when it's late at night  
I stare up at the sky looking for light  
And then a cold comes over me  
And I know that this aint right  
I remember nobody should be living alone  
How good it feels to have somebody  
To make conversations with  
How good it feels to have somebody  
To keep up relations with  
How good it feels to have a friend  
Be together again  
How good it feels to have you  
How good it feels to have you  
How good it feels
