Pour Over

Vintage Culture & Adam K

Turn the porch light on so you don't think I'm home I wish to taste your words but you sit at your throne

Drop after drop you are filling me up

Keep twisting my arms trying giving you upYou're pouring over

I'm breathing water

I'm keeping my composure

Small sins blur together

They follow me homeDid you make a mess

To prove you could

Should I clean it all

Like you thought I would

When you pour over

Pour over me me me me on me

Don't let me bre-bre-bre oh bre

Pour over me me me me on me

Don't let me bre-bre-bre-bre-bre-bre-bre You can't hear me say what you're hating to say

That you're taking to much I wait you like a prayer

I'm washing away and you're giving me up

Drop after drop you don't give a fuckDid you make a mess

To prove you could

Should I clean it all

Like you thought I would

Did you write it down

Did you leave it for me

Did the words bend and blur

Make me weak in the knees

When you pour over

Pour over me me me me on me

Don't let me bre-bre-bre oh breathe

Pour over me me me me on me

Don't let me bre-bre-bre-bre breathe'cause i'll give you the world

If lie you will know that

If I give an hour

You turn me inside

And I'm a cardDid you make a mess

To prove you could

Should I clean it all

Like you thought I would

Did you write it down

Did you leave it for me

Did the words bend and blur

Make me weak in the knees

When you pour overPour over me me me me on me
Don't let me bre-bre-bre oh breathe
Pour over me me me on me
Don't let me bre-bre-bre breathePour over me me me on me
Don't let me bre-bre-bre-bre oh breathe
Pour over me me me on me
Don't let me bre-bre-bre-bre breathe
