## **Overdose**

## **Exodus**

I never smoked with no cigarettes I never drank much booze But I'm only a man, don't you understand And a man can sometimes lose You gave me something I never had Pulled me down with you Pulled me up, think I'm in love Hope you can pull me throughI overdosed on you I overdosed on you Crazy but it's true Ain't nothing I can do I overdosed on you Oh woman you give to me More than I can take But listen honey, I don't mind You're a habit I don't want to break Don't want none of that hard stuff Don't need it anymore I'm in love, and I'm sinking fast And I don't need no cureI overdosed on you I overdosed on you Crazy but it's true Ain't nothing I can do I overdosed on youGee I was happy as a man could be To far gone to escape Power of love, don't pull me off Just write on my grave: I overdosed on you I overdosed on you Crazy but it's true Ain't nothing I can do I overdosed on you
