

# Bonfire (feat. Alma)

Felix Jaehn

Words, I can hear the whispers about me  
About me  
Hurt, it hurts if I let all the poison in  
If I let them win When you're mad, make it rain  
You're trying to put my fire out  
You feel better now?  
Spill your hate, bring your wisdom  
Through it right into my flames  
I want you to know I am the bonfire  
You make me stronger  
You make me light up  
With the shade you throw on me  
Throw on me  
I am the bonfire  
You make me stronger  
I'm going higher  
I live off your gasoline, gasoline  
I am the bonfire  
I live off your gasoline, gasoline Breathe, now I close my eyes  
And I just breathe, I just breathe  
Hurt, but shit that doesn't kill you  
Makes you strong, so bring it on When you're mad, make it rain  
You're trying to put my fire out  
You feel better now?  
Spill your hate, bring your wisdom  
Through it right into my flames  
I want you to know  
I am the bonfire  
You make me stronger  
You make me light up  
With the shade you throw on me  
Throw on me I am the bonfire  
You make me stronger  
I'm going higher  
I live off your gasoline, gasoline Run your mouth around my business  
So I can look like them other bitches  
Let them drinks , yeah, that's my business  
Fuel to the fire, fuel to the fire  
Run your mouth, you can run your mouth  
Think your rain can put my fire out  
Spilling how you feel better now  
Fuel to the fire, fuel to the fire I am the bonfire

You make me stronger  
You make me light up  
With the shade you throw on me  
Throw on me I am the bonfire  
You make me stronger  
I'm going higher  
I live off your gasoline, gasoline  
I am the bonfire, I am, I am  
I am the bonfire, what up, what up I am the bonfire  
You make me stronger  
I'm going higher  
I live off your gasoline, gasoline
