## **Bonfire (feat. Alma)**

## **Felix Jaehn**

Words, I can hear the whispers about me About me Hurt, it hurts if I let all the poison in If I let them winWhen you're mad, make it rain You're trying to put my fire out You feel better now? Spill your hate, bring your wisdom Through it right into my flames I want you to knowI am the bonfire You make me stronger You make me light up With the shade you throw on me Throw on me I am the bonfire You make me stronger I'm going higher I live off your gasoline, gasoline I am the bonfire I live off your gasoline, gasolineBreathe, now I close my eyes And I just breathe, I just breathe Hurt, but shit that doesn't kill you Makes you strong, so bring it onWhen you're mad, make it rain You're trying to put my fire out You feel better now? Spill your hate, bring your wisdom Through it right into my flames I want you to know I am the bonfire You make me stronger You make me light up With the shade you throw on me Throw on meI am the bonfire You make me stronger I'm going higher I live off your gasoline, gasolineRun your mouth around my business So I can look like them other bitches Let them drinks, yeah, that's my business Fuel to the fire, fuel to the fire Run your mouth, you can run your mouth Think your rain can put my fire out Spilling how you feel better now Fuel to the fire, fuel to the fireI am the bonfire

You make me stronger You make me light up With the shade you throw on me Throw on meI am the bonfire You make me stronger I'm going higher I live off your gasoline, gasoline I am the bonfire, I am, I am I am the bonfire, what up, what upI am the bonfire You make me stronger I'm going higher I live off your gasoline, gasoline Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
