## We're Not In Kansas Anymore

## I See Stars

We are dark The way the night stretches over the sun And we're up to no good Yeah we're up to no good No we won't go peaceful There is no excuse for the way that we live Yeah we're up to no good No we won't go peacefulWill you release me, my friend There's nowhere to run or hide Again and again Getting lost in the depths of my mind And this cell can't hold back My dangerous thoughts 959 miles away is where you'll find me I'm afraid I've been locked away Throw out the key (Throw out the key) Throw out the key I'm afraid I've been locked awayWe are dark The way the night stretches over the sun And we're up to no good Yeah we're up to no good No we won't go peaceful There is no excuse for the way that we live Yeah we're up to no good No we won't go peaceful Will you release me my friend? There's no where to run or hide Again and again Getting lost in the depths of my mind And this cell can't hold back My dangerous thoughts There's no where to run or hide Getting lost in the depths of my mind959 miles away is where you'll find me I'm afraid I've been locked away Throw out the key (Throw out the key) Throw out the key I'm afraid I've been locked awayDon't look backDon't look back Get me the hell away from here You don't know you're free, until you're locked away Even just for a day I tell you I'm not the man I used to be
