

# COME THRU

Joji

[Intro]

Yeah

Yeah yeah yeah

Yeah yeah yeah yeah [Chorus]

Won't you come through? I don't know me

You could walk right through, yeah

There's nothing like me, yeah

No caller ID, no

You were really like me, you know

You don't really like me, woa

Yeah, you're better by default

[Verse 1]

Ooh, say you're alright

Say you're okay

Am I too much?

I can't tell no more

I keep my thoughts indoors

No, I don't wanna wait

I wanna let you know

We don't gotta wait, no more

So, babe, I wanna test my faith

Can you shout up, in my line up like it was yesterday

All by myself, can't share my wealth

You know what I mean so very well

When I say "I need you now"

Will you listen? (Dont you know who?)

[Bridge]

Won't you come through? I don't know me

You could walk right through

There's nothing like me, yeah

Wrong caller ID, yeah

You're really like me, you know

You don't like me, woa

Yeah, you're better by default [Chorus]

Won't you come through? I don't know me

You could walk right through, yeah

There's nothing like me, yeah

No caller ID, no

You were really like me, you know

Yeah, you don't really like me, woa

Yeah, you're better by default
