

# Just Being Me

NF

Feels like I'm in the sky  
Flying over clouds or somethin'  
I don't smoke weed, but you could say I'm high on somethin'  
It's like this music is my addiction, I call it my nicotine  
What you're witnessing is an addicted fiend and it sickens me (AH)  
Just a lame as how you picture me  
Give me that microphone and I'm gonna rip it so viciously  
Ain't you hearing the chemistry?  
Ain't it ironic I brought up chemistry?  
Cuz I was never good at math but I'm ill with the melody  
Since I was a kid, I had a dream that I would make it  
I spent thousands of hours writing music in that basement  
Even though I'm broke, you know why I still chase it?  
Cuz once you get a taste of it there is no replacement  
Yo, I don't rap, so millions of people will like me  
I rap, cuz there's millions of people just like me  
If you think I'm out of my mind, I ain't gonna argue, I might be  
But I'm not on the stage just for people to sightsee  
I'd rather die than let this dream go to waste  
You can tell that I ain't playin' by the look up on my face  
The world wants to tell us who we are and who we ain't  
But the person that I am is somethin' you can never change  
Yea I'm just being me, yea  
I'm just being me, yea  
I'm just being me, yea  
And this defines me

Look into my music and you'll find me When I step into that studio, feels like I'm in my house

If you listen to my music than you know what I'm about  
No I ain't never been the type to just sit around on the couch  
I get lost in these beats till my body passes out  
Let's rewind

What ever happened to music that meant something  
Cuz nowadays I look around and music don't mean nothin'  
And to be honest what's really making me sick to my stomach  
Is everybody's runnin' around screaming they love it  
A lotta people think they understand the music biz  
I am not a genius but at least I know what music is  
Put a CD on the shelf, and you thinkin' you'll be filthy rich  
But you just become the definition of what filthy is  
The music, me and her, we've been through a lot together  
And I can tell somethin' ain't right if we are not together  
And yo God gave me the story so we plot together

I get shot, whatever, this is who I am remember?  
I'd rather die than let this dream go to waste  
You can tell that I ain't playin' by the look up on my face  
The world wants to tell us who we are and who we ain't  
But the person that I am is somethin' you can never change  
Yea I'm just being me (yea)  
I'm just being me (yea)  
I'm just being me (yea)  
And this defines me  
Look into my music and you'll find me I'd rather die than let this dream go to waste  
You can tell that I ain't playin' by the look up on my face  
The world wants to tell us who we are and who we ain't  
But the person that I am is somethin' you can never change  
Yea I'm just being me (yea)  
I'm just being me (yea)  
I said that I'm just being me (yea)  
I'm being me, I'm just being me I'd rather die than let this dream go to waste  
You can tell that I ain't playin' by the look up on my face  
The world wants to tell us who we are and who we ain't  
But the person that I am is somethin' you can never change  
Yea I'm just being me (yea)  
I'm just being me (yea)  
I'm just being me (yea)  
And this defines me  
Look into my music and you'll find me  
Yea I'm just being me
