Breathe (feat. Rob Swire)

Eric Prydz

Sun's always falling
Weightless and free
Now when you close your eyes
Just breathe, breathe with meLet go
Release

Let go of the way you're feeling Release, over and under till you return to meThe sky's always falling Weight underneath

And when you close your eyes

Just breathe, breathe with me Let go

Release

Let go of the way you're feeling

Release, over and under till you return to meLet go of the way you're feeling Release of the way you are

Let go of the way you're feeling

Release, over and under till you return to me

Let go

Release

Let go

Release
