While We're Young

April March

Say it's time for love, It's time for thrill, And an adventure.Say you'll drive me away, Fast on the cliffs, And we'll be in danger. Tell me they'll be no fear As we walk to the edge, Stare at the void While we're youngDrive me out to the bluff Where only love's chosen goLove's eternal roar is hiding... [undiscernible] say its time for love its time for thrill and an adventuresay you'll drive me away fast on the cliffs and we'll be in dangerTell me they'll be no pain We'll never grow old The sun will expire In our embraceGreen and gold and life Guide us on our speedy flight. Beyond the wheels is black So tell me we'll never turn back.Say it's time for love, It's time for thrill, And an adventure Say you'll drive me away Fast on the cliffs and we'll be in dangerTell me they'll be no fear As we walk to the edge Stare at the void While we're young ...while we're young... ...while we're young...
