## Here for You (feat. Laura Welsh)

## **Gorgon City**

I know we'll make it I know we'll make it through, ooh One thing's for certain, that I'll be here for you, ooh Don't overthink it Don't question what we do, ohh One thing's a constant, that I'll be here for you, oohWe all go through changes, run to different places That doesn't mean that we have to part And when you feel like nobody's on your side Please believe I'm never too far I, I I will be here for you I will be here for you I, I I will be here for you I will be here for you (I will be here for you)Whether it's sunshine, whether it be rain, ooh We'll stand the pressure, I'll release the pain, ooh We all go through changes, run to different places That doesn't mean that we have to part And when you feel like nobody's on your side Please believe I'm never too far I, I I will be here for you I will be here for you I, I I will be here for you I will be here for you (I will be here for you) I, I I will be here for you I will be here for you

I, I I will be here for you I will be here for you(I'll be here for you) I will be here for youAnd when you're cast away and you feel alone, ooh I'll try to find you I'll try to guide you homeI, I I will be here for you I will be here for you I, I I will be here for you Song Discussions is protected by U.S. Patent 9401941.
