

Say It Again

H.E.R.

Show tonight
I hit all the notes that I know you like
You know I'm a pro when I'm on the mic
We're already here so turn off the lights, yeah You had a lot to say
No more talking
You can use that mouth in other ways
'Cause I want it now
I want it now
Now...And I won't say it again
Oh you know I don't get naughty for anybody
I won't say it again
Even though this ain't the first time
I tell you one time
I ain't gon' say it again
Time to time
What you been asking
Into actions
I won't say it again
I won't say it again, yeah We go
Baby, give me all of that ego
You say it's food for thought
Let me feed you
This ain't even the half
It's a preview I had a lot to say
I'm done talking
I'mma throw it back like yesterday
'Cause I want it
And I want it now
And I won't say it again
Oh you know I don't get naughty for anybody
I won't say it again
Even though this ain't the first time
I tell you one time
I ain't gon' say it again Time to time
What you been asking
Into actions
I won't say it again
I won't say it again, yeah Oh you know I don't get naughty for anybody
Oh you know I don't get naughty for anybody
