

# To the Sky (M83 Remix)

## Maps

My memory  
Feels like it's playing with me  
These things I know  
Yeah, I know The sun will end with you  
Need help to cut on through  
Can only feel this way  
When silence comes I can sing it to the sky  
There's a risk it won't reply  
If I could change it, man I would  
And I won't screw it up this time Been here before  
It won't happen no more  
These things I know  
Yeah, I know  
They get into your mind  
I guess you know the signs  
Can only feel this way  
When silence comes I can sing it to the sky  
There's a risk it won't reply  
If I could change it, man I would  
And I won't screw it up this time I can sing it to the sky  
There's a risk it won't reply  
If I could change it, man I would  
And I won't screw it up this time I can sing it to the sky  
There's a risk it won't reply  
If I could change it, man I would  
And I won't screw it up this time  
I can sing it to the sky  
There's a risk it won't reply  
If I could change it, man I would  
And I won't screw it up this time
