

Hear Me Calling

Juice WRLD

Ring, do you hear me calling?
Purps On The Beat
You don't want no drama Do you hear me calling?
Do you hear me calling?
You don't want no drama
Not a fighter, a lover
Do you hear me calling?
Do you hear me calling?
You don't want no drama
I just want you my darling
Breakaway, make away to make it
Love the way you looking when you naked
Treat your heart just like a blunt, of OG
Roll it up, I kissed it and I smoke you
Gots to be joking
Where in the fuck did you think you were going?
Folding and packing your clothes
Like you ain't know I was gon' unfold it
Wine glass full of your emotions
Oh, Pinot Grigio, sipping
Beautiful, heaven-soul woman
He don't know, let me know, let me
In your heart, don't you dare forget me
I'm your fan, yo
Posters on my walls inside my head, yeah, yeah
I'm your fan, yo
Posters on my walls inside my head, yeah
Do you hear me calling?
Do you hear me calling?
You don't want no drama
Not a fighter, a lover
Do you hear me calling?
Do you hear me calling?
You don't want no drama
I just want you my darling You drive me insane, no
Girl make me feel this way
Wait girl, you got your ways
Girl you are my getaway
Wait, let me keep you safe
In exchange, give me brain brain
You my main thing, turn around, bang bang
Hit the beach in LA like you a beach ball

Me and you in the Lambo truck
You start it up and skrt off
We park after dark at the park by the mansion
Take your skirt off
Oh, me can't wait to get all up inside of it
My heart is racing, every time I'm tasting it
Wait until the drugs fade out
Hate making love when I'm faded
That's because I wanna feel it
Girl, you give me the best feeling
Yes, girl you're the best, take away stress
Love me to death
Even when I'm a messRing, do you hear me calling?
You don't want no drama
Do you hear me calling?
Do you hear me calling?
You don't want no drama
Not a fighter, a lover
Do you hear me calling?
Do you hear me calling?
You don't want no drama
I just want you my darlingRing, do you hear me calling?
You don't want no drama
Ring, do you hear me calling?
You don't want no drama
