

Medicine Hat

Pond

Been walking in circles so long
My head is spinning, direction's gone
The night is darkest just before the dawn
So goodbye my friend, it's time to move on
Taking some time to clear out my mind
Change up the light
Why did I leave it so long
Drawn in and torn up in the throne
I guess I'm taking that this time I was wrong
Remembering is hardest when you're alone
Broken and cold, sick on the mat
Well on my way to Medicine Hat
