

# Medicine Hat

## Pond

Been walking in circles so long  
My head is spinning, direction's gone  
The night is darkest just before the dawn  
So goodbye my friend, it's time to move on  
Taking some time to clear out my mind  
Change up the light  
Why did I leave it so long  
Drawn in and torn up in the throne  
I guess I'm taking that this time I was wrong  
Remembering is hardest when you're alone  
Broken and cold, sick on the mat  
Well on my way to Medicine Hat
